

50 BEST COMPANIES TO WORK FOR

RANKED BASED ON THE NUMBER OF MLO VOTES AND THE AVERAGE SCORE

Learn the Critical Money-Making Skills You Need to Build a Profitable Mortgage Business

Here are some sobering statistics. The majority of mortgage originators will likely see a 20–40% decline in personal income from last year. And if that is the worst that happens, they are the lucky ones.

What makes the difference between thriving and barely surviving in the mortgage business, between a Top 10 mortgage originator earning \$1 million+ a year and someone just getting by? Answer: It's not interest rates or service levels. It's the skills, strategies, and systems developed and implemented by each mortgage professional. That is the key element.

MASTERMIND SUMMIT gives you the tools and systems to make quantum leaps in your mortgage production and business results. Designed for successful, experienced originators, managers, and CEOs, the event provides what is needed to break through to the next level.
